Pro Statement for Campus Learning Assistance Services (CLAS)

Help Campus Learning Assistance Services (CLAS) maintain tutorial groups, drop-in centers, evening hours of operation, academic and study skills workshops, and exam review sessions for the over 9,600 students who use our services each year.

Without your continued support, CLAS, as you know it, will face looming reductions in all services, hours of operations, student employment opportunities, and staff availability. Your support during the election is critical to your academic support services.

CLAS sees approximately 50% of UCSB's undergraduate students and is a viable part of students' academic plans. For a program that is optional, CLAS is in ever-increasing student demand. Nearly 220,000 student contact hours were logged last year. We would like to continue to serve students in this capacity. CLAS is asking for your reaffirmation support to keep a level of services available that meets the student demand.

Help keep the CLAS academic services you know and love by voting for the CLAS reaffirmation. Your "Yes" vote will ensure that CLAS maintains its open door policy and that all students will continue to have equal access to vital academic tutoring and instructional services.

Reaffirm your love!
Vote "YES" for CLAS.

Pro Statement for *The Daily Nexus*

For almost 100 years now, the Daily Nexus has been providing the UCSB campus community and beyond with thoughtful, engaging coverage of all university and community-related events to produce news, entertainment, opinions, editorials, and even satire. Affirming the Nexus lock-in fee allows us to remain the only newspaper on campus with no administrative input, ensuring our community has 100% student-run independent coverage.

Pro Statement for Student Health

Student Health is a primary and urgent care facility on campus available to all UCSB students. Thanks to unwavering student support, we are able to provide high quality medical and behavioral healthcare along with physical therapy, dental and eye care centers. Our Advice Nurses, Alcohol & Drug Counsellors and Social Workers are provided free-of-charge with help from these additional funds that students provide.

We are fully certified by the Accreditation Association for Ambulatory Health Care (AAAHC). All providers are licensed and/or certified in their respective fields. Continuous quality improvement and an accredited continuing education program are all part of the high standards maintained.

Please vote yes on reaffirmation so Student Health can continue to address the health needs of a diverse and active campus community.
